OUTDOOR FURNITURE

outdoor Interiors[®]

bringing style and solutions to your patio & garden

Outdoor Interiors designs and manufactures comfortable outdoor furniture that's always on-trend with an exciting blend of mixed materials. Collections include sustainable, plantation-grown Eucalyptus and FSC®-certified Teak Hardwoods. Products are praised and recognized for incorporating the highest quality all-weather wicker, nautical rope, sling, concrete composite tabletops, benchtops, fabrics, and natural stone.

4-Piece Teak & Grey Blend Wicker Seating Group

Our versatile 4-Piece Seating Set is loaded with tons of teak and draped in wicker. The matching love seat, (2) armchairs, and coffee table provide a new upgraded version of our best selling set!

Set ships in one large carton for easy shipping and is crafted from the highest quality materials starting with all-Natural plantation-grown

FSC® Certified Teak hardwood for long-lasting outdoor use and durability in all climates.

Our thick grey HDPE all-weather wicker armchairs, loveseat, and coffee table are hand woven around powder-coated aluminum frames for lasting durability. Olefin branded grey and beige fabrics with white piping complete this collection.

Coffee Table: 42.5"L x 23"W x 17.5"H

3-Piece Teak & Wicker Convertible Storage Set

The Outdoor Interiors 3-Piece Teak & Light Grey Wicker Sectional Set with Coffee Table combines style and functionality for the perfect outdoor seating arrangement. It's the greatest solution for the biggest problem in outdoor furniture!

This collection is crafted from the highest quality materials starting with all-Natural plantation-grown FSC® Certified Teak hardwood to withstand years of outdoor use in all climates.

The light grey all-weather wicker is woven around a powder-coated aluminum frame for lasting outdoor use and durability. Our cushions are made from Olefin performance fabrics. This set also includes adjustable feet risers under the units for uneven patios and decks and two connectors for securing the ottoman.

The ottoman comes detached to give you a left or right-facing chaise or use it as a stool to accommodate more

guests. We've extended our storage collection with Captain's chairs in pairs. Each piece has waterproof storage for the cushions, so you don't have to worry about your pillows and cushions in unexpected weather. The set also comes fully assembled!

CARE & MAINTENANCE

Bringing the comfort of the indoors out is what outdoor living is all about. Unlike the indoors, your outdoor spaces present unique challenges when trying to keep your outdoor furniture looking its best. Whether your pieces are made of wood, aluminum, resins, or a combination of some or all of those materials, periodic cleaning and maintenance is a must. Fabrics can begin to look dingy, woods can grey, crack, or even splinter, and aluminum can lose its luster...

...but with proper care, your outdoor furniture can last decades!

The amount of maintenance that is required depends on the location. For example, covered patio furniture requires much less cleaning and oiling than products in partial or direct sunlight or under trees that may drop dirt and debris.

Please see the additional Care & Maintenance details below for the best care for your furniture.

TEAK HARDWOODS

If your Teak furniture becomes soiled, use a mild detergent and a soft cloth only for cleaning. Do not use abrasive cleaners or cleaning products. Solid Teak should be oiled at least two times per year to maintain the golden teak color and to preserve hardwood integrity for many years. Use name-brand teak or hardwood oils for outdoor use. Note that many Linseed Oils and other oils will darken natural Teak. Always test a small inconspicuous area to ensure compatibility and for color purposes. If a grey patina is desired, preservatives are available in the marketplace to help you maintain this look and help protect and maintain this desired color. Furniture covers are a wise investment as an extra layer of protection during the off-season.

EUCALYPTUS HARDWOODS

All hardwood is living, natural fiber. Due to weather and everyday use, changes occur with hairlines in the grain and lighting. The stained finish on our eucalyptus furniture will begin to fade and dry out if left untreated. However, to slow down the aging process and maintain your furniture's "like new" appearance, you should regularly treat the wood. We recommend using a name brand Teak or Boiled Linseed to maintain and protect your hardwood furniture. Please apply at least twice in the spring and summer. The number of applications varies depending on direct sunlight, temperature, and dry climate versus more humid regions. Your furniture will provide tell-tale signs along the way, so "Please Oil" accordingly. Do not apply any furniture oil in direct sunlight. Apply oil generously and wipe away excess with a dry cloth approximately 1 hour after application.

CAUTION: Using Linseed oil on natural unstained Teak will initially create a much darker appearance before being placed in direct sunlight or outdoors for at least 30 days. Always test a small area under the furniture before finishing any piece with any oils, sealants, or finishes. Caution: Always dispose of oil-soaked rags carefully and in a safe container due to fire concerns.

WICKER & SLING

Hardwood oils will not harm wicker or sling material. However, it should be wiped away immediately after any oiling projects. If wicker or sling becomes soiled or dirty, use water, soft cloths, and brushes with mild detergents for cleaning.

PLASTICS AND RESINS:

Chairs can be cleaned with soapy water and a sponge, or a damp Mr. Clean Magic Eraser. If you like, you can make an Earth Scrub to help remove dirt.

Please avoid using pressure washers on plastic or resin furniture. If the nozzle is placed too close to the plastic it could damage the plastic making it look fuzzy and allowing atmospheric dirt and particles to get inside. Over time this can make your furniture look dirty and impossible to return to its original look.

FABRIC

Outdoor fabrics are designed with durability and cleanability in mind. Regular cleaning of your cushions will keep them looking new and spot cleaning is quick and easy when accidents happen.

Outdoor fabrics can often be cleaned without being removed from umbrella and furniture frames or cushions. Start by removing any loose dirt or debris by first brushing or shaking it off. Clean with warm water (no more than 100° F), mild natural soap, and a soft bristle brush if necessary. Test a small, inconspicuous area to make sure the cleaner will not affect the color of the fabric. Rinse thoroughly to ensure all of the cleaners have been removed. Allow the fabric to air dry. Unzip cushion covers to help them dry more rapidly.

When washing or cleaning, **DO NOT SUBJECT TO EXCESSIVE HEAT** as the fabric will shrink. **DO NOT STEAM PRESS OR DRY IN ELECTRIC OR GAS DRYERS.**

ALUMINUM

A consistent schedule of cleaning the surface will help remove dirt, grime, and other surface build-ups that can help keep your furniture looking new. Over time, powder-coated finishes exposed to the elements may show signs of weathering such as reduced gloss and slight color loss. Use a non-abrasive soap or household cleaner and wipe aluminum, woven, or Reserve pieces with a soft cloth. Furniture can be rinsed with hose water. We do not recommend using chemical cleaners such as acetone, alcohol, mineral spirits, or lacquer thinners. Any type of chemical that is harmful to the powder coat surface should be removed or cleaned immediately. Avoid using pressure washers.
