

## Andersons Weed and Feed 24-0-16

- Contains post emergent weed control and fertilizer
- 2, 4-D, Dicamba and other ingredients control more than 250 weeds
- The 24-0-16 fertilizer has both quick and slow release nitrogen as well as 1% iron for immediate green up and extended feeding
- Apply in spring or anytime broadleaf weeds are present and actively growing. 18 lb. Bag, 5,000 sq.ft. Coverage
- Can apply 4 to 6 weeks after Anderson's crabgrass preventer
- Mow the lawn 1 to 2 days before applying to a wet grass and wait 24 hours after application to water the lawn
- Can not overseed for 4 weeks after application
- Do not apply to newly seeded or sodded lawn until after 3<sup>rd</sup> mowing
- Avoid contact with shrubs, plants, flowers, vegetables while applying
- If lawn is heavily overrun with weeds, may reapply in 30 days
