Oil Stain Remover

A specially formulated poultice compound designed to safely and effectively extract set-in oil stains from concrete pavers, natural stone, grout, and other concrete surfaces.

- Removes set-in oil stains
- Leaves no residue
- Will not discolor surfaces
- Easy to use

Concrete pavers, natural stone, including granite, marble, slate, limestone, travertine, sandstone, Saltillo, bluestone, clay-based tile, ceramic, porcelain & grout.

8 oz.
Pint

A better way to care for your hardscape surfaces.

Whether it's a brand new installation or one that you've enjoyed for years, you'll want to protect your investment to keep it looking new. MORE™ can help you do that.

- Best in class performance.
- Safe water-based technology.
- Expert technical support.

Safe. Simple. Effective.

CLEAN

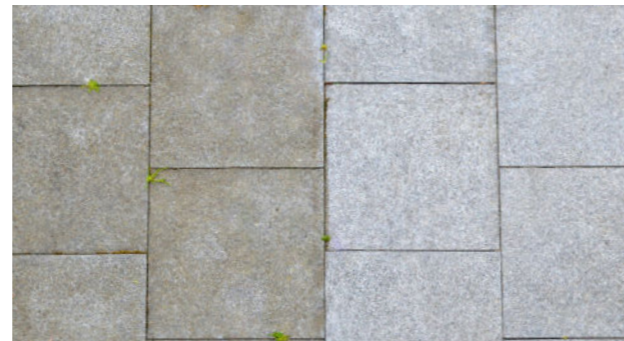

Use **ACIDIC CLEANER:**

- To remove mold release agent on wet cast pavers.
- To remove efflorescence, construction debris, mortar, and grout smear.
- **DO NOT USE on marble, limestone, onyx or travertine.**

Use **ALKALINE CLEANER:**

- To remove organic debris and stains such as mold, mildew and algae.
- To remove impacted dirt and grease on tile and grout.

Use **COATING STRIPPER:**

- To remove old coatings that are yellowing, peeling or cracking.
- To remove polymeric sand haze and smear.

Use **OIL STAIN REMOVER:**

- To remove deeply penetrated oil and grease from within the paver or natural stone surface.

Use **STONE & TILE CLEANER:**

- For regular cleaning of dirt and grime on natural stone, concrete, and concrete paver surfaces.
- Neutral pH cleaner is safe to use on all surfaces.

PROTECT

Use **PAVER SEALER:**

- For excellent stain protection on concrete and clay pavers.
- To keep the natural look of the paver.
- To keep pavers looking new.
- To minimize efflorescence.

Use **PREMIUM STONE SEALER:**

- To achieve maximum stain protection on natural stone surfaces.
- To keep the natural look with no gloss.
- To minimize efflorescence.
- No need to strip off before recoating.

Use **STONE ENHANCER:**

To enhance the natural color and texture of pavers and natural stone.
For excellent oil and water repellency.
No need to strip off before recoating.

Use **PREMIUM GLOSS SEALER:**

For a high gloss finish.
For maximum stain protection.
To stabilize joint sand.
If you want a topical coating.

Always test product in an inconspicuous area to ensure desired results.
